Consent for Assessment and Treatment

I understand as a patient of Restorative Health Clinic that my preliminary diagnoses and treatments will be discussed with and determined by one of our physicians.

I understand that I have the right, as a patient, to be informed about my condition and the recommendations for testing and treating be they conventional, integrative, complementary, alternative, non-conventional, or non-standard. My informed decision whether or not to undergo testing or treatment will be made after I have been informed of all the potential benefits and risks involved.

I understand that some of the treatments recommended by my physician do not fall under the general definition of conventional medicine. My treatments may include both conventional and natural medicine techniques such as IV or injection therapy, homeopathy, ionized footbath therapy, naturopathy, supplements, hyperbaric chamber oxygen therapy, infrared lite therapy and conventional prescriptions.

Before I consent to recommended treatments, I will have a practitioner explain all the procedures, alternatives, benefits, and risks.

I understand that treatment is typically provided over the course of several weeks or months. In an effort to receive the most effective treatment possible it is important to make all my appointments and course of treatments in the manner prescribed by my physician.

Except for emergencies, I understand that procedures are not performed until I have had an opportunity to discuss any questions and concerns.

Consent for evaluation and treatment is hereby given under the terms described in this consent document and I may discontinue the evaluation and treatment at any time. I understand that I am free to accept or reject the treatment provided.

I understand that all information shared with the physicians, therapists and staff of Restorative Health Clinic is confidential and no information will be released without my written consent.

I do hereby indemnify and hold harmless the physicians, therapists, clinic and staff of Restorative Health Clinic who act in reliance upon this authorization.
